1st International Conference

The word REGAIN means "recover", "restore" and this is our mission: to help our patients return to the activities they love. RE.GA.IN.[®] -Regenerative Galeazzi Institute - is a centre of excellence which ensure the best experience in regenerative medicine. The RE.GA.IN.[®] 1st International Conference is designed to share experience and opinions among medical professionals, basic scientists and commercial entities. We sincerely thank and welcome our outstanding national and international faculty and all the participants.
